Supplementary figures

Constanze Ohlendorf & Eckhard W. Heymann

Do saki monkeys possess a grooming claw?

Figure S1.

Mean length, width and width/length ratio of nails on the right (R) and left (L) foot of *Pithecia monachus* (blue) and *Pithecia pithecia* (green). Whiskers are ±95% confidence intervals.

(a) Length

(b) Width

(c) Width/length ratio

Figure S2.

Individual profiles for length and width of nails and for the width/length ratio.

Blue: *Pithecia monachus*, green: *Pithecia pithecia*
