A mistake has been introduced in the second and third rows of the first column. Please see the corrected version below.

Table 1. Predation and predation attempts on titi monkeys.

Prey species	Predator	Type of observation	Source
<i>Plecturocebus</i>	<i>Eira barbara</i> (tayra)	Unsuccessful attacks	De Luna et al. (2010)
<i>discolor</i>	<i>Boa constrictor</i>	Successful predation	Cisneros-Heredia et al. (2008)
(<i>Callicebus discolor</i>)	<i>Harpia harpyja</i> (harpy eagle)	Successful predation	De Luna et al. (2010)
<i>Plecturocebus moloch</i>	<i>Sapajus apella</i> (<i>Cebus apella</i>)	Successful predation	Sampaio and Ferrari (2005)
(<i>Callicebus moloch</i>)	(capuchin monkey)		
<i>Plecturocebus toppini</i>	<i>Boa constrictor</i>	Successful predation	Lawrence (2007)
	<i>Morphnus guianensis</i> (crested eagle)	Successful predation	Terborgh (1983); Wright (1984)
(<i>Callicebus</i>	<i>Spizaetus tyrannus</i> and <i>Spizaetus ornatus</i>	Successful predation	Terborgh (1983); Wright (1984)
<i>moloch</i> ,	(ornate hawk-eagles)		
<i>Callicebus brunneus</i>)	<i>Sapajus macrocephalus</i> (<i>Cebus apella</i>)	Successful predation	Lawrence (2007)
	<i>Leopardus pardalis</i> (ocelot)	Unsuccessful attack	Wright (1984)
	<i>Accipiter bicolor</i> (bicoloured hawk)	Unsuccessful attack	Wright (1984)
<i>Plecturocebus</i> sp.	<i>Harpia harpyja</i> (?)	Successful predation	Curtis Freese, personal communication with Kinzey et al. (1977)
(<i>Callicebus moloch</i>)
